

## ***PARASITOLOGY***

***Parasitology*** is the study of parasites that cause economic losses in Agriculture, aquaculture operations or which infect companion animals.

The parasitology laboratory offers expertise in the identification of animal parasites (helminthology, entomology and protozoology) from all types of clinical specimens. The laboratory is a section for scientific research that is complemented with field work. It also handles both undergraduate and postgraduate students for practicals purposes. Technical teaching sessions are also arranged for small or large groups of individuals from other institutions.

The thematic area is headed by ***Dr. J.M Ayuya***.

***The staff under the thematic area includes:***

- ❖ ***Prof. J.W Munyua***
- ❖ ***Prof. P.N Kanyari***
- ❖ ***Prof. Maingi Ndichu.***
- ❖ ***Dr. R.M. Waruiru.***
- ❖ ***Dr.S.M. Githigia***
- ❖ ***Dr. J.N Chege***
- ❖ ***Dr. J.M Ayuya***
- ❖ ***Ms. R.N Gitari***
- ❖ ***Ms. R.W Githinji***
- ❖ ***Mr. R.O. Otieno.***
